

ReadSpeaker

Reimagine student success with a comprehensive suite of audio-enhanced learning tools.

ReadSpeaker text-to-speech solutions are designed to support learners as they work to overcome accessibility and learning challenges. Empower learners to listen to text with synchronized highlighting across digital assignments, books, web pages, scanned notes, personal documents, and more. This fosters confidence and independence, motivating students to take charge of their education and achieve their full potential.

One click web reading

The reading ruler and page mask help you focus on the text

Download audio for offline listening

Look up definitions in the dictionary

Translate text into any of the available languages

Enlarge the text being read aloud

Draw or write directly on any document you've uploaded
